Integra Technologies Selects Kansas for Largest Semiconductor Project

INTEGRA
TECHNOLOGIES
An Employee Owned Company

February 2, 2023 – The Kansas State Finance Council's vote secures APEX funding, paving the way for a transformative economic expansion in the Wichita region. The Partnership has been honored to support Wichita's Integra Technologies who is the largest provider of back-end semiconductor services in the country. The vote opens the door for a project to expand Integra's footprint in the Wichita region with a one million square foot headquarters and production facility and could add at least 2,000 employees and \$1.8 billion in capital investment in the Wichita region contingent on receiving federal CHIPS for America funding.

Our Talent Roadmap and collective efforts ensure our region has the talent infrastructure and partnerships to grow and recruit the workforce. Partnership's leadership joined the governor, South-Central legislative leadership, State of Kansas Commerce and others for the vote. Integra, the Partnership, and our region are appreciative of this vote which allows the process to move next steps, including local support for Integra's application for funding from the bi-partisan U.S. CHIPS and Science Act funding, designed to increase our national security and technology innovation.

Cybersecurity company Novacoast to open new Security Operations Center in Wichita

February 25, 2021

Cybersecurity company Novacoast is opening a new Security Operations Center (SOC) in Wichita with plans to initially hire 60 employees with plans for continued growth. Beyond the 24-7 Security Operations Center, the Wichita office will include sales, software development and cyber engineering.

The company was planning an expansion in another area of the country when the Greater Wichita Partnership proactively asked about its business needs. Novacoast CEO Paul Anderson said based on that outreach, he was intrigued about the Wichita region and asked to learn more.

Novacoast will locate in the Epic Center, and Anderson said that they were impressed with the investment in downtown.

The privately held company has more than 350 employees at its headquarters in Santa Barbara, Calif. and four existing Security Operation Centers in California, Michigan, Manchester, United Kingdom and Guatemala City, Guatemala plus other global offices. The 24-year-old company has a global customer base of highly regulated global firms such as banks, healthcare, and energy companies.

Cybersecurity and IT Systems & Support are identified as target industries for growth in the [Regional Growth Plan](#). The sector is also in the [State of Kansas' Framework for Growth](#), created through the Kansas Department of Commerce.

Amazon to locate fulfillment center in Park City and delivery station in Wichita

October 16, 2020

Amazon announced the location of two facilities in the Greater Wichita region, creating hundreds of jobs and bringing economic opportunities and growth to the region.

- A new one million square-foot fulfillment center at 7130 North Broadway Avenue in Park City is anticipated to open in 2021.
- The delivery station at 4044 North Toben is expected to open this year.

Amazon joined State of Kansas' Governor Laura Kelly and Secretary of Commerce David Toland, U.S. Senator Jerry Moran, Sedgwick County Chairman Pete Meitzner, Wichita Mayor Brandon Whipple and Park City Mayor Ray Mann in a virtual news conference announcing the two facilities in the Greater Wichita region and a third in the Kansas City region.

According to the news release, Amazon has an industry-leading minimum starting wage from \$15 an hour and offers full-time employees comprehensive benefits and access to training and education.

Elected leaders and Greater Wichita Partnership President Jeff Fluhr discussed the significant announcement and benefits in a **Greater Wichita Partnership news release**. The Partnership will share the announcement with other potential prospects in the transportation and logistics sector, one of the key target sectors in the **Regional Growth Plan**.

Agricultural drone company selects Wichita for new, expanded manufacturing operations

Greater Wichita Partnership **PRINTED WEBSITE REPORT**

July 9, 2020

AgEagle Aerial Systems announced today that it will relocate its manufacturing facilities and expand them to Wichita. The company provides technologically advanced drones and aerial imagery-based data collection and analytics solutions.

AgEagle chose Wichita in a competitive process between Wichita and a Colorado city. The Partnership team worked with the AgEagle team and the Kansas Department of Commerce with efforts supported by the City of Wichita, Wichita State University's National Institute for Aviation Research (NIAR) and the National Center for Aviation Training (NCAT) at WSU Tech.

Identified in the [Regional Growth Plan](#), aerospace and agriculture are included in the key industries to grow our regional economy, attract new businesses and expand existing industries.

Wichita State University secures Navatek

July 8, 2020

Hawaii-based Navatek will open a new engineering and research office on the Wichita State University campus this fall. Navatek is a contractor focused on technology research for U.S. government agencies such as the Department of Defense and NASA. The company and Wichita State have signed an 8-year memorandum of understanding outlining their research and recruitment partnership.

Navatek plans to expand staffing to 20 engineers and scientists within the next 24 months and additional applied learning positions for students. In addition to work already funded, Navatek, WSU and WSU's National Institute for Aviation Research (NIAR) partnership have multiple joint research proposals to government agencies for additional funding.

The Partnership team worked with Wichita State University and the Kansas Department of Commerce on the effort.

Advance Catastrophe Technologies outlines plans to expand and build new national headquarters and training center in Wichita

May 27, 2020

Advance Catastrophe Technologies, Inc. (ACT) announced proposed plans to build a new \$2.89 million - 20,000 square-foot corporate headquarters in Wichita that will include a national training facility. The company has identified the Hoover Industrial Park at the southeast corner of Hoover Road and K-96 as the proposed site.

According to ACT President and CEO Christian Wiley, the company started planning an expansion and new headquarters due to the significant growth it has seen over the last couple of years. The Greater Wichita Partnership team began working with the company as they explored future expansion plans.

The company provides planning, recovery and restoration services to more than 6,000 customers nationwide and in Canada in hospitality, senior care, student housing, healthcare and more. ACT is unable to expand at its current location in Bel Aire and as the company considered its options, company leadership expressed the desire to be near an airport as they bring in national customers and staff.

Part of the company's plans include a national training facility that will bring employees to Wichita to train in an onsite simulation center on disaster situations like flooding, smoke damage and mold remediation to learn the latest mitigation and response methods hands-on. The company also plans to bring national customers to Wichita to view the latest in emergency response techniques.

ACT is targeting to begin construction this summer and would add 10 full-time employees over the next five years to its existing headquarter employment of about 20. ACT employs more than 20 additional full-time employees around the country, not including its emergency response teams.

The Greater Wichita Partnership worked with ACT and a number of partners, including the City of Wichita, Sedgwick County and the Kansas Department of Commerce on the proposed project. The City Council will be reviewing a proposal for the new headquarters at its meeting on Tuesday, June 2.

ACT President and CEO Christian Wiley said, "We were especially pleased to find a location near the airport that could accommodate the travel of so many to our new facility. We like showing off Wichita and the vibe the city has going, to clients and employees alike. Even though many of our employees live throughout the country, Wichita is ACT's home."

Started in 2001, ACT has grown to become a premier nationwide company in the area of restoring properties and getting companies back in business after a disaster.

Manufacturing company Anderson & Forrester chooses Clearwater Business Park

anderson & forrester™

May 21, 2020

For the second time in a few weeks, the City of Clearwater is announcing a new business locating to Sedgwick County. The Greater Wichita Partnership team was pleased to support the City of Clearwater throughout the process, working closely with partners, including the Kansas Department of Commerce.

The manufacturing company Anderson & Forrester is relocating from the Denver metro area to the Clearwater Business Park. This follows the announcement of the Plains Cotton Cooperative Association's new warehouse and distribution center in Clearwater.

Anderson & Forrester, a leader in orifice and conversion fitting needs, supplies parts to original equipment manufacturers in the natural gas and propane industry. The company will have about 10 full-time employees in a new 7,500 square-foot manufacturing facility being constructed by a local contractor.

Construction on the new building is expected to begin soon with the company relocating this summer. Plains Cotton Cooperative Association is also about to begin construction on its new 473,000 square-foot warehouse and distribution facility in the Clearwater Business Park.

Identified in the [Regional Growth Plan](#), advanced manufacturing and oil & gas are included in the seven key industries to grow our regional economy, attract new businesses and expand existing industries.

Plains Cotton Cooperative Association chooses Clearwater's business park

Greater Wichita Partnership **PRINTED WEBSITE REPORT**

April 15, 2020

The Greater Wichita Partnership team supported the City of Clearwater and Sedgwick County in securing a new company and distribution center for the region.

Plains Cotton Cooperative Association (PCCA) has chosen the Clearwater Business Park for a new warehouse and distribution center. The project calls for building a new 473,000 square foot facility, with plans to hire over a dozen new full-time employees and additional seasonal workers.

PCCA is a co-op founded in the 1950s and is one of the largest textile suppliers in the world. As the exclusive provider for Texas, Oklahoma and Kansas, this is its second facility in Kansas. The new warehouse will store cotton from cotton gins in Winfield, Anthony and Pratt which will be distributed and shipped to production facilities world-wide.

According to the company's plans, the facility will be built next to the Union Pacific rail line in the Clearwater Industrial Park with construction beginning this summer and completed by this fall's cotton harvest.

Agriculture is one of seven target industries identified in the **Regional Growth Plan**, our region's collective strategy to grow the economy, attract new businesses and expand existing industries.

Collaborative, regional effort on Reiloy USA expansion fills Maize Industrial Park

Greater Wichita Partnership **PRINTED WEBSITE REPORT**

February 18, 2020

Advanced manufacturing company Reiloy USA is expanding its capabilities and capacity at its current Maize location. The German-owned company has plans to invest more than \$20 million in a new building, machinery and grow to more than 100 employees in the next few years.

Reiloy USA has a 54,000 square-foot facility at the Maize Industrial Park and currently employs 68 people. Based on initial plans, the new building will be located on 13 acres near Reiloy USA's current building. The company plans to hire 39 people over the next five years, and will provide new employees with highly specialized training.

The Greater Wichita Partnership worked with Reiloy USA and a number of partners on the collaborative, regional effort to help the company with its expansion efforts, including the City of Maize, the Kansas Department of Commerce and Every.

About Reiloy USA

German company Reifenhauser Group is Reiloy USA's parent company. It was founded in 1911 and is a leading provider of innovative technologies and components for plastics extrusion. It enables its customers to produce blown films, cast films, sheets and nonwovens of the highest quality.

The Reifenhauser Group purchased the Westland Corporation in 2012 and announced a move and expansion to the Maize industrial park in 2014. This additional investment solidifies the company's presence in Maize while providing customers with more options and capabilities in component technology in the plastics industry including proprietary, cutting-edge extrusion and blow molding plastic processors.

New Wichita IT facility for NetApp's 600+ employees with more coming on WSU Innovation Campus

January 21, 2020

A new \$50M investment will move forward on Wichita State University's (WSU) Innovation Campus to accommodate planned growth at NetApp, a Fortune 500 global IT company with over 600 employees locally in Wichita.

NetApp will not only keep its Wichita location through this investment but grow its existing employee base, adding 45 full-time jobs over the next five years and 70 over the next ten years. New positions include software and hardware engineers, customer support personnel, researchers and administrative support personnel. The estimated annual income for these new employees exceeds \$100,000. The company will continue to employ WSU students in full-time, part-time and internship positions, building a direct pipeline of IT talent for our region through applied learning.

In order to support NetApp's growth, WSU Innovation Campus developer MWCB, LLC will build a 168,000-square-foot Wichita headquarters for the company. Per City Council approval at today's meeting, \$33M of Industrial Revenue Bonds will finance the new 3-story, state-of-the-art Class A facility. NetApp estimates that it will invest an additional \$17M in the facility for machinery, equipment and tenant related improvements. The Wichita City Council approved the use of Industrial Revenue Bonds, which do not provide public funding but a lower available interest rate, along with a sales tax exemption and property tax exemption.

NetApp, a Fortune 500 company, is a cloud data services and data management company, with global headquarters in
