Greater Wichita Partnership

OUR INSIGHT, YOUR SUCCESS

The Greater Wichita Partnership team is focused on one primary objective: to fast-forward regional economic growth. Our team works within three key priorities — Jobs, Talent and Quality of Place — to accelerate this objective.

As catalysts and agents of change, our team's key role is to implement the visions outlined in our primary work plans, including the Regional Growth Plan, the Accelerate Wichita Report, the Talent Roadmap and Talent Marketing Blueprint, Project Wichita and Project Downtown. Working with stakeholders, governments and partners, we are able to offer valuable insights into the visions set forth in the plans, and how our community can effectively work together to benefit the region.

Whether you are an existing business seeking to expand, an external company exploring relocation opportunities, or a local company working to attract the skilled talent to take your company to the next level, the team at the Greater Wichita Partnership is focused on your success.

Contact our team today to discover how to access the services listed below and discover how you can help accelerate the economic development of our community.
