

Greater Wichita  
Partnership

## Our Strategic Priorities

As an innovative, collaborative organization we are designed to proactively drive change — in thought and in action — to position our region to thrive. At the Greater Wichita Partnership, we bring alignment and focus to community efforts, work together toward common goals, practice diversity and intentional communication and advance the unique qualities of our region.

---

MISSION – To align resources and focus the business community on common strategies that fast-forward economic growth in Wichita and South Central Kansas.

---

## Aligning Focus: How the Greater Wichita Partnership Accelerates Growth

As an innovative, collaborative organization we work to proactively drive economic development efforts in order to position our region to grow. At the Greater Wichita Partnership we work with others toward common goals to advance the unique qualities of our region.

We are focused on three main priorities: jobs, talent and quality of place, all to fast-forward the region's growth. These priorities are shaped by three highly detailed, research-driven plans that were developed in 2018: the [Regional Growth Plan](#), the [Talent Marketing Blueprint](#) and [Project Wichita](#). These priorities are also informed by the master plan for downtown Wichita's development, [Project Downtown](#). The efforts identified in these plans require many private and public sector partners to achieve success and support growth in Wichita and the region.

### **Jobs**

We support the creation of jobs through business expansion and retention, company attraction and cultivating entrepreneurship.

### **Talent**

We work with businesses and the region to attract and keep talent while also supporting talent development.

### **Quality of Place**

We are focused on developing a distinctive quality of place that attracts talent, visitors and economic growth.
