

## 2021 YEAR-END UPDATE

In 2021, the Partnership launched new initiatives and worked collaboratively to address the economic challenges that arose in 2020. While still focused on the economic recovery of the Greater Wichita region, the Partnership team continued to fast-forward economic growth within our three strategic priority areas of **Jobs**, **Talent** and **Quality of Place**. These priorities are driven by strategic, research-based plans, including the **Regional Growth Plan**, **Accelerate Wichita Report**, the **Talent Marketing Blueprint**, **Project Wichita** and **Project Downtown**.

Through the commitment of the Greater Wichita Partnership investors, the following results are a culmination of our team's efforts to position our region as a place where both business and community members can thrive.

Below is an overview of the work that has been accomplished within the Partnership's three strategic priorities through a highlight video and digital report.
