

WICHITA, KS – WE KNOW AVIATION

Air Capital Aviation

Flight is in our heritage, and it's still in our blood today. With a pro-aviation business environment and the highest concentration of skilled aerospace manufacturing employees in the U.S.A., the Greater Wichita region knows airplanes inside and out.

Proudly boasting the #1 skilled aviation workforce in the nation, the Air Capital of the World provides companies direct access to the most-trained and most-advanced workers in the world. In addition to a robust talent pipeline, your business can take full advantage of the **over 10,000 world-class manufacturing workers that are available now.**

Join companies like Textron Aviation with Beechcraft and Cessna, Bombardier Learjet, Spirit Aerosystems, Airbus and the more than 450 world-class suppliers designing, engineering, building and maintaining the globe's fleet of commercial and general aviation aircraft. The Air Capital of the World is home to the world's best talent, the perfect sites and all the expertise–everything your business needs.

Get in touch with our team to discover how the Air Capital can take your business to higher altitudes.
