**DRIVING FORCE**

*Midwest metros Great Recession employment recovery*

In 2008, the nation experienced the worst economic downturn since the Great Depression of the 1930’s, resulting in a loss of wealth and sharp cutbacks in consumer spending. This directly impacted employment and jobs across all industries, especially in Wichita, where we have not recovered employment at the rate of other Midwest communities.

The core of the Greater Wichita Partnership’s work is to accelerate regional economic growth - and thereby positively impact our employment recovery. Working alongside community stakeholders and public partners, we work to aggressively grow jobs, attract and retain talent and enhance quality of place.
JOBS

Accelerate the creation of jobs and increase capital investment through expansion and retention, attraction and entrepreneurship. Key initiatives are based upon priorities identified in the Regional Growth Plan, completed in 2018.
